- Cambridge Advantage: “We’re a medium sized organisation in global terms – much smaller than others. But what enables us to compete effectively and sustainably with them is not only our capabilities and assets - but the combined capabilities and assets we have access to as part of Cambridge: the brand, the expertise and reputation of the research and teaching departments, partnership with Cambridge Assessment, and collaboration in support areas too”. (Syndics board)
- The first ever joint Academic Publishing/Cambridge University Library strategic session took place with the new University librarian and her team. Access to Cambridge journals.
