A collection of peer reviewed open access journals

All disciplines – all languages

One interface

Aims and goals

Increase visibility and access

= Increased usage

= Increased citation =

Increased impact

= Increased usage...

- **Initiated during the first Nordic Conference on Scholarly Communication in Lund/Copenhagen October 2002**
- **Initially funded by Open Society Institute and co-funded by SPARC**
- **Project started January 2003**
- **Service launched 12th of May 2003 with 300+ journals**

Selection criteria

Agreed upon in the beginning of the project

- 1. Open Access**
- 2. Quality control measures**, the journal must exercise peer-review or editorial quality control to be included.
- 3. Scientific or scholarly content**

Open Access – the definition

We define open access journals as journals that use a funding model that does not charge readers or their institutions for access.

From the BOAI definition of "open access" we take the right of "users to read, download, copy, distribute, print, search, or link to the full texts of these articles" as mandatory for a journal to be included in the directory.

Selection policy

- **Subjects = all**
- **Languages = all**
- **Resource types = periodicals**
- **Target group = researchers**

- **Cost = none for the user**

DOAJ: phase 2

Article level search

- **Search at article level**
- **Facilitate the creation of article-level metadata for journals**
- **Increasing OAI-compliance creates other options in the future**
- **searchability at article level boosts usage**
- **Started September 2003 and launched in June 2004**

October 2005

- **1830+ journals**
- **451 titles (79.000 articles) with article level metadata**
- **Article level metadata for OAI-harvesting is available**
- **Numbers growing every day**

(Development of phase 2 funded by OSI, and co-funded by SPARC and BIBSAM (Royal Library of Sweden))

Number of journals listed in DOAJ

- **May 2003:** 300
- **November 2003:** 558
- **May 2004:** 1097
- **November 2004:** 1345
- **June 2005:** 1601

Directory of Open Access Journals (DOAJ) Import to Vera: DRAFT

`/afs/athena.mit.edu/dept/libdata/libdepts/g/staff/systems/scripts/ openaccess`

README
For open access e-journals:

This script will add the "- present" to the start date. This is needed before importing it into Vera.

Get the file here: <http://www.doaj.org/articles/questions>
Look for the link to download it: <http://www.doaj.org/doaj2csv.cgi>

You'll get a file called "doaj2csv". Rename it to "doaj2.csv"

Upload that to this directory. Then run this script:

```
./ej_format.pl --infile=doaj2.csv --outfile=doaj-done.csv
```

Download that file and open a new blank Excel doc. Go to the menu Data

-  [AgBiotechNet.com](#)
AgbiotechNet is an information portal for current information about biotechnology and biosafety, including patents, conference and job vacancies, as well as fulltext of some resources. It provides access to research developments in genetic engineering and updates on economic issues. Users may set up individual profiles.
-  [AGRIS database](#)
Agricultural sciences and technology including forestry, animal husbandry, aquatic sciences, human nutrition and food. Publisher: Food and Agriculture Organization (FAO). Timespan: 1975 onwards.
-  [Animal Science.com](#)
An information portal in the areas of animal production or veterinary medicine, providing access to news, upcoming conferences and job vacancies as well as providing access to fulltext of some resources. Users may set up individual profiles.
-   [BioMedCentral](#)
This service provides free access to over 100 peer-reviewed, open access biomedical research publications. These include journal articles, current reports and meeting abstracts, as well as information about current controlled trials.
-   [Biosis Previews](#)
Biological and biomedical sciences, agriculture, zoology, veterinary science and pharmacology. Includes information on research reports, reviews, meetings and U.S. patents in the Life Sciences. Allows simultaneous searching of the material in both Biological Abstracts and Biological Abstracts RRM. Timespan: 1994 onwards. Print equivalent, Biological Abstracts and Biological Abstracts RRM, are available in the Main Library at Abstracts and Indexes 570 and covers from 1925 onwards (1900 onwards for RRM material). Off-campus access available with [Athens](#) account.
-   [CABDirect](#)
Agriculture, forestry, environment, tourism, public health, development studies, and veterinary science. Timespan: Material published since 1972.
-   [Cambridge Scientific Abstracts](#)
Pure, Applied and Social Sciences. Covers a wide range of subjects, including education, sociology, business, biological and environmental sciences, engineering and materials science and computing. Off-campus access available with [Athens](#) account.
-   [Directory of Open Access Journals](#)
This service, hosted by Lund University Library, provides free access to over 1200 quality-controlled, open access journals in all subjects and languages. A high proportion of the titles are in the humanities and social sciences.

Open Access Journals

OPEN ACCESS IN ULRICH'S! In response to the evolving opportunities in serials information, ulrichsweb.com is now showcasing Open Access (OA) journals -- free electronic full-text academic and scholarly journals from SPARC, PLoS, Biomed Central, the [Directory of Open Access Journals](#), and other providers. Ulrichsweb.com subscribers can now search for and directly access the home pages and full-text of hundreds of these exciting new research resources. An "Open Access" search limiter on the Advanced Search screen lets users pinpoint Open Access titles. In addition, a new "Free" price limit lets users identify all of the free publications in Ulrich's -- whether print or electronic -- including journals, magazines, newspapers, newsletters and other serials.

Magazines for Libraries

DOAJ DIRECTORY OF
OPEN ACCESS
JOURNALS

Lotte Jorgensen, Lund University
Libraries

“Since the beginning of this program, Lund University has provided encouragement to faculty and librarians throughout the globe in providing secure and comprehensive access to important journals that are freely available world wide. DOAJ has demonstrated the growing importance of alternatives to large scale commercial publishing.”

**Frances Groen, Trenholme Director of Libraries,
McGill University, Canada.**

DOAJ DIRECTORY OF
OPEN ACCESS
JOURNALS

Lotte Jorgensen, Lund University
Libraries

Momentarily, the Directory of Open Access Journals is of paramount importance for the open access movement. The site demonstrates the viability of new approaches in scientific publishing and its strong growth is a source of inspiration and encouragement to all who are working at an opener access to the results of academic research. Numerous reports and important policy statements use the site as a point of reference.
